Product overview

The Shannon illuminated LED mirror is a sleek addition to any bathroom, providing beautiful lighting with the wave of a hand.

The mirror features stylish soft-edge corners that echo the contours of the two illuminated rings on the front face.

The built-in demister pad guarantees that the mirror will always stay perfectly clear, and the infrared sensor ensures the mirror will stay clear of any finger marks.

Key Features

- Infra-red sensor operated
- Demister pad
- Integrated shaver socket
- Diffused LED's

Technical Specification

Voltage	240V
Wattage	49W
Number of LED's	140
Color Temperature	6000K
Dimmable	No
Operating Temperature	5°C to 45°C
Cable Length	Not included

Mechanical Specification

Product	Dimensions (mm)	Weight (kg)	IP Rating
Shannon	H700, W500, D55	9.2	IP44
