

Product overview

The Incline is a stylish, rechargeable wardrobe LED strip light which offers a superb light output. It has a rechargeable lithium-ion battery and an integrated PIR sensor. The battery is rechargeable using the integrated USB port.

The integrated PIR sensor enables the unit to stay lit when movement is detected. If no movement is detected, the unit will switch off after 30s. The unit has an on-off switch to save the battery capacity when the unit is not in use.

The Incline is sleek, functional light available in Cool White (6000k). The fitting is easy to install and has end caps cover to cover the installation screws.

Mechanical Specification

Product	Dimension (mm)	Weight (grams)	IP Rating
SE20242CO	350 x 41 x 18	167	20
SE20252CO	550 x 41 x 18	273	20
SE20272CO	850 x 41 x 18	397	20

Benefits

- Easy to use and install
- Suitable for use in a wardrobe or Kitchen Lighting.
- LED Technology for long life
- Energy Saving (Good Lumens per watt ratio)

Key Features

- Good efficacy
- Sleek Appearance
- Integrated PIR
- Available in different lengths,
- Rechargeable Batteries

Technical Specification

Supply	5V Lithium-Ion Battery
Power	350mm : 0.4W
	550mm : 0.6W
	850mm : 0.9W
Light Output	350mm : 27lm
	550mm : 48lm
	850mm : 80lm
Colour Temperature	6000K
Beam Angle	100°
Material	Aluminum
Operating Temperature	5°C to 45°C
