sensio ®
furniture lighting solutions

UK CA **RoHS** CE ⚠ FRAGILE 🚮

Benefits

- Provides a diffused light effect
- Ensure the flexible strip will not droop or sag over time – secure mounting
- Provides additional protection to the flexible strip
- No dark spots around corners

Key Features

- Ultra-slim profile
- Can be cut to size
- Clips around the plinth board for secure mounting
- Removable strip mount for ease of installation and serviceability
- Designed to fit 16-18mm plinth boards

Product overview

Designed specifically for plinth boards, the Accent profile is an innovative new solution for mounting flexible strip lighting without the fear of drooping over time.

The flexible strip mounting platform has been cleverly angled to ensure the diffusion of individual LED points, as well being removable for ease of installation and serviceability.

Cleverly designed corner connectors can also be used to create fully illuminated circuits with no dark spots around the corners.

This profile is one of the new Micro-Lines range, which means it is exclusively designed for flexible strips 5mm in width or below.

Technical Specification

Material	Profile - Polycarbonate
	Strip Mount - Polycarbonate
	Accessories - Polycarbonate
