

### Benefits

- Reduced amount of SKU's
- Colour can be changed easily after installation
- Simple installation process
- LED technology for long service life

### Key Features

- 1 light – 3 colour temperatures
- Simple to use and easy to install
- Diffused light – no visible dots
- Sleek contemporary appearance
- Elongated design ensures a vast spread of light across the worktop
- Fittings daisy chain together

### Product overview

Successor to the Sensio classic, Quadra, the Ark TrioTone™ is a new and improved option that is sure to look good in any style of kitchen.

The product features an elongated body which provides a vast spread of light across the worktop – perfect for task lighting, as well as fully diffused light source so no individual diodes can be seen.

TrioTone™ technology enables the light source to be changed between the three most popular shades of white (cool, natural and warm) with a switch hidden underneath the magnetic case.

Installation is also made quick and simple due to the magnetic casing and daisy-chain method of connecting light's to one-another rather than the driver

### Technical Specification

Wattage	2.5W
Voltage	24V
Light output	170 Lumens
Lumens per Watt (Efficacy)	68 lm/W
Colour rendering index	≥80
Beam angle	120°
Colour Temperature	Warm White: 3000 Kelvin
	Natural White: 4000 Kelvin
	Cool White: 5000 Kelvin
Cable Length	1.5 Meter
Operating Temperature	0°C ~ + 55°C
Material	Outer Body - Metal
	Inner Body - Plastic
	Diffuser - Polycarbonate

### Order Codes

Description	Order Code	Barcode
