

Benefits

- Unlock the true potential of the Flux LED flexible
- Customizable lighting
- A multitude of colour options to choose from

Key Features

- Dimming function
- Colour changing and mixing function
- Dynamic colour sequence modes
- Four zone channels
- 30 Meter range
- Multiple receivers can connect and amplify one another's signal

Product overview

The RGB CCT Receiver is an essential accessory to unlock the full potential of the Flux LED flexible strip.

Simply combine the receiver with the RGB CCT Remote control to access a multitude of clever features, such as dimming, colour changing and dynamic sequence modes.

When multiple receivers are used together the Zone feature becomes available, which enables each receiver to be assigned to a room. Each receiver can then be programmed to remember a certain light function, RGB colours only for example, as well as remembering the colour for each zone.

Each receiver has a transition range of 30 meters to the RGB CCT Remote Control and if multiple receivers are used in the same zone, they will amplify the signal to achieve limitless range.

Technical Specification

Input Voltage	12-24V
Output Wattage	36-72W
Input Signal	2.4GHz
Control Distance	30 Meters
Dimming Range	0-100%
Dimming Grey Scale	4096 (2 ¹²) Levels
Operating Temperature	-30°C ~ + 55°C
Cable Length	150mm

Order Codes

Description	Order Code	Barcode
RGB CCT Receiver	SE770990	5060522086680

Mechanical Specification

Product Name	Dimensions (mm)	Weight (g)	IP Rating
RGB CCT Receiver	H 20, W 38, L 100	60	IP20
