

Benefits

- Simple installation process
- LED technology for long service life
- Low wattage – reduced energy consumption

Key Features

- Vast light source
- Slim depth – 10mm
- Magnetic fixing brackets
- Diffused light – no visible diodes

Product overview

Perfect for creating a showcase with glass-fronted cabinets, the Exposure features a vast and fully diffused light source that will blend seamlessly into the back of wall units to provide elegant mood lighting.

Designed with installation in mind, the panel is only 10mm in depth excluding the mounting magnets, which means that it can fit easily behind shelves, and it attaches via magnetic fixing brackets for ease of installation.

Technical Specification

Wattage	13W
Voltage	24V
Light output	1300 Lumens
Lumens per Watt (Efficacy)	100lm/W
Beam angle	120°
Colour Temperature	4000 Kelvin
Cable Length	1.5Meter
Operating Temperature	0°C ~ + 55°C
Material	Outer Body - Steel
	Lens - Polycarbonate
