

Benefits

- LED for long service life
- Low wattage – energy saving
- Rechargeable

Key Features

- Integrated IR sensor on the front face – light will turn on when drawer is opened
- Energy saving. When drawer is closed, light turns off
- Magnetic Fitting/tape requires no brackets

Product overview

The Strata is a fantastic addition to any kitchen, providing lighting to hard-to-reach places such as the insides of drawers and cabinets.

Attaching with magnets and sticky tape, the strata is incredibly easy to install requiring no brackets or fixings.

Simply attach the magnetic plate and tape to the product, position in the desired location and enjoy lighting to areas of your kitchen which were previously dark and hard to see in.
