

OPUS

The Opus is a cost-effective solution, ideal for the retrofit market, with no electrical knowledge or installation required. Available in two popular sizes – 235mm or 405mm, so you can find the right fit for any cabinet size. Energy efficient and easy to use, the rechargeable Lithium-Ion battery will last for approximately 8 months, based on 3 minutes of use per day, and magnetic brackets ensure the light is easy to remove for charging.

The integrated PIR sensor means it will turn on with motion, and then turn itself off once you're finished, saving on battery life, hassle and running costs. Easy to install and perfect for spaces such as cabinets, drawers and wardrobes.

BENEFITS

- LED Technology for long Service Life
- Cost Effective Solution (No electrical Installation Required)
- Ideal for Wardrobe and Kitchen Cabinet
- Easy to install
- Versatile and stylish

KEY FEATURES

- Integrated PIR sensor
- Rechargeable using the USB-C port
- Available in two sizes
- Better thermal conduction
- Fully diffused

TECHNICAL SPECIFICATION

Wattage	235mm: 1.4W
	405mm: 3W
Voltage	5V
Colour temperature	Natural White: 4000K
Battery	Lithium-Ion
Battery Duration	8months based on 3minutes operation/ day
PIR Sensor Range	120° at 3m
Finish	Aluminium
Operating temperature	5°C to 45°C
