UNIVERSAL STRIP CONNECTORS

Designed to simplify installation and to limit the complication around buying and using strip connectors, these universal strip connectors are compatible with a wide range of our most popular LED strips.

With squeezable prongs for easy opening, these are pain free to open and install. Furthermore, the interconnecting cable, joining clip, corner connector and T-junction connector are all compatible with either CCT or Single Colour products.

With a fully transparent design, this reduces dark spots, and in the case of COB strips, it eliminates them entirely.

COMPATIBILITY					
Code	Description	Polar Pro / Pro X	Polar / Polar X	Primo 2 / X	Sigma 2 / X
SE00175	Single Colour Driver Lead		✓	✓	✓
SE00176	CCT Driver Lead	✓			
SE00177	Interconnecting Lead	✓	✓	✓	✓
SE00178	Joining Clip	✓	✓	✓	✓
SE00179	Corner Connector	✓	✓	✓	✓
SE00180	T Junction Connector	✓	✓	✓	✓

BENEFITS
• Products that work between CCT and Single Colour.
• Clear casing eliminates dark spots.
• Wide range of connectors for any installation use-case.
• Pair perfectly with Polar, Primo and Sigma products.

KEY FEATURES
• Prongs for easy opening.
• Simple installation with no soldering.
• Interoperability between strips.

TECHNICAL SPECIFICATION	
Material	Nylon
Driver Lead Length	2.5m
Interconnecting Lead Length	440 lm/m

RoHS CE UKCA
