

MODUS PLUG-IN LED DRIVER

The Modus, plug-in LED driver is designed to provide a simple and convenient power solution for under-cabinet lighting applications.

Connecting directly to a standard wall socket, it eliminates the need for complex wiring or mains connection by an electrician. The driver features a single output port for powering under-cabinet spotlights or LED flexible strip lighting, making it ideal for retrofit installations where speed, simplicity, and minimal disruption are essential.

BENEFITS
• Enables fast and easy retrofit installation without modifying existing cabinetry
• Removes the need to route cables behind cabinets or walls
• Eliminates the requirement for an electrician to connect to mains power
• Ideal for upgrading or adding under-cabinet lighting with minimal disruption
• Simple single-port connection reduces installation time and potential wiring errors

KEY FEATURES
• Plug-in LED driver with direct wall-socket connection
• Single output port for lighting connection
• Suitable for under-cabinet spotlights and LED flexible strip lights
• Designed for retrofit and surface-level installations
• Compact, user-friendly design

TECHNICAL SPECIFICATION	
Rated Input Voltage (V)	220-240
Input AC Frequency	50/60Hz
Output Voltage (V)	24 ± 5%
Output Current (A)	1.25
Wattage	30W Max
Short Circuit Protection	Yes
Overload Protection	Yes
Thermal Protection	Yes
Surge Protection	Yes
Operating Temperature	-20°C to +40°C
Humidity	10% to 90%RH
Number of Ports	1
